
A vertical stack of five white PVC pipe sections is shown. The bottom section is a gray 90-degree elbow. The stack is placed on a dark gray circular base. The background is dark with some cardboard pieces visible.

Put deflector extension on the gray deflector (90 degree elbow) as shown.

A photograph showing the rear drain hose routing on a white cylindrical tank. The tank is supported by a black metal frame. A black corrugated hose is connected to a brass fitting on the tank's side. The hose loops around the frame and runs down to a black drain pipe at the bottom. A blue wire is tied to the hose near the fitting. A tire is visible in the bottom right corner.
